

Introduction

Creating secure environments, Securiclad provides an effective modular panel system with Government approved protection for high-risk areas.

Securiclad works across a broad spectrum of sectors, specialising in data centres, Government infrastructure, airports, healthcare facilities, universities, banks, cargo facilities and private residential clients, all requiring a security solution for high value assets ranging from currencies, hazardous materials, pharmaceutical products, IT infrastructure and much more.

With over four decades of technical experience, quality assurance and innovation, Securiclad's team of experts advise and guide customers through the purchase from design and project management to the installation process.

Having worked alongside contractors of all sizes on sites around the globe, Securiclad ensures project alignment, quality products and a precise certified installation which is recognised as an industry leading security solution.

Securiclad's modular panel range not only facilitates security infrastructure to LPS1175 SR5, but provides fire-resistance, thermal and acoustic benefits plus reduced carbon emissions on site.
